

East Pennsboro Township Board of Commissioners

- George A. DeMartyn, President
- James H. Hertzler, Vice President
- Charles E. Yohe, Jr.
- John W. Kuntzelman
- E. Thomas Fry

To the Citizens of East Pennsboro Township:

What will East Pennsboro Township look like in 2020? How will the Township maintain the quality of life it offers through its villages, neighborhoods, and services? How will it attract and retain businesses to provide employment and commercial services? What visible features should continue to be a part of the Township’s identity? What types of changes to regulations, administration, and other guidance are needed to continue to develop and enhance the Township as a desirable place to live, work, and play? These are questions that Township officials and residents of East Pennsboro Township have addressed in the development of this comprehensive plan.

Our previous comprehensive plan has served us well in guiding development and decision-making over the past 15 years. Many of the policies established in the 1989 comprehensive plan remain unchanged in this updated document. We feel this is a testament to the quality of leadership that has served our residents, and the community as a whole.

This updated comprehensive plan presents a snapshot of East Pennsboro Township in 2003/ 2004, refines our vision for continued growth, and offers innovative options for continued management of the physical, socio-cultural and functional components of our community. Most importantly, it offers continuity with previous policy and planning efforts. With pride, we have adopted this 2005 Comprehensive Plan for East Pennsboro Township.

Sincerely,
George A. DeMartyn, President
East Pennsboro Township
Board of Commissioners
